

Our area is very fortunate to have K-Love available, and may be the only area in the state of NY. It has been a very uplifting and encouraging program for me to listen to; especially at a very trying time in my life where my husband is terminally ill. It has been an absolute blessing for me. We have enough of the other secular music stations for this area. K-Love offers comfort, support and music that blesses the soul. We truly need more stations like this with this world in so much turmoil. The public needs spiritual music to keep their faith strong and to have uplifting songs for their families to listen to; especially children. Please keep K-Love going strong for its many faithful listeners throughout the country. Thank you.
